SUMMARY

Motivated 4th-year Information Technology student with hands-on experience in full stack web and mobile application development, graphic design, game development using C#, and network planning with Cisco tools. Proficient in building modern, responsive systems from front-end to back-end with a strong focus on UI/UX and system functionality. Eager to apply my technical skills to support organizational growth and innovation.

TECHNICAL SKILLS

Web & Mobile Development

- HTML, CSS, JavaScript, TypeScript
- Angular, Ionic Framework
- Bootstrap, Tailwind CSS

Backend Development and Database Management

- PHP
- Python (scripting, basic automation)
- RESTful APIs
- Authentication & CRUD Operations
- MySQL

Game Development

- C#
- Game Logic, Player Movement, Collision Detection

Networking

- Network Planning & Design
- Cisco Tools (Routers, Switches, Basic VLAN & IP Addressing)
- Network Documentation & Proposal Writing

UI/UX & Graphic Design

- Figma (Wireframing & Prototyping)
- Adobe Photoshop, Illustrator
- Canva
- UI/UX Design Principles & Branding

Tools & Others

- Git & GitHub
- Problem Solving & Debugging

WORK EXPERIENCE

Freelance Graphic Designer **Jan 2023 - Present**

- Designed custom logos for small businesses and personal brands based on client requirements
- Created social media banners and promotional graphics optimized for Facebook and Instagram
- Designed application UI/UX prototypes using Figma, including wireframes and high-fidelity designs
- Collaborated with clients to revise designs based on feedback and branding goals

Barangay Management System (Commission Project) **Sep 2024**

- Implemented features such as resident records management, user authentication, and data management
- Ensured proper database structure and secure CRUD operations

MY PROJECTS

Event Reservation Mobile App (Capstone / Academic Project)

- Implemented real-time time-slot availability and reservation logic
- Integrated user authentication, messaging, and profile management
- Designed modern UI with dark and light mode support

High School Enrollment System & Promotional Website (Academic Project)

- Developed a web-based enrollment system
- Implemented student registration forms, data validation, and database storage
- Created a promotional website to showcase school programs, announcements, and contact information

Clinic Management System (Academic Project)

- Implemented patient records management, appointment handling, and basic CRUD operations
- Designed a clean and responsive UI optimized for mobile devices

Maze Game (Academic Project)

- Implemented game logic, player movement, collision detection, and win conditions
- Applied problem-solving and logical thinking in game mechanics design

Network Plan Proposal – Amaha General Trading (Academic Project)

- Created a comprehensive network infrastructure plan proposal for Amaha General Trading
- Designed network topology using Cisco tools (routers, switches, VLANs, and IP addressing)
- Proposed secure and scalable network solutions to support business operations
- Documented network layout, device placement, and basic security considerations

CERTIFICATIONS

Participation in National Research Conference **Dec 9, 2025**
Smartmasters Review Association INC.

EDUCATION

Bachelor of Information Technology **2022 - present**
Pampanga State University - Mexico Campus
